

SAF UPGRADE CERTIFICATE

This document certifies the use of
Sustainable Aviation Fuel (SAF) for the charter flight

departure: [XXXXXXXXXXXXXXXXXX] **destination:** [XXXXXXXXXXXXXXXXXX] **aircraft registration:** [XXXXXX]

date: [XXXXXXXXXXXXXXXXXX] **fuel consumption:** [XXXXXXXXXX]

performed by **Atlas Air Service AG**

The equivalent amount of jet fuel consumed on this charter flight will be substituted by certified SAF on flights of Atlas Air Service. This will decrease climate impact of the individual flight by reducing greenhouse gas emissions. SAF offers real, immediate, and significant reductions of up to 40% compared to conventional fuel and is our choice for improving sustainability.
